#### Disclaimer regarding forward-looking statement:

The performance forecast provided in this document is prepared by the management based on currently available information and various hypotheses and ideas including significant risks or uncertainties. Please be aware that the actual performance may turn out to be different from the forecast as a result of various contributing factors.

Factors affecting the performance include, among others, aggravation of the economic situation, fluctuation of the exchange rate, change of regulatory, statutory, and administrative requirements, delayed launch of new products, pressures from the product strategies of competitive companies, and decline of the sales potential of existing products.
